

PRANVEER SINGH INSTITUTE OF TECHNOLOGY

Welcome to PSIT Kanpur

The institute provides a stimulating environment for intellectual development, free-thinking, and personal growth. The academic setup challenges its students with dynamic learning opportunities. We equip them with the skills, insights, attitudes, and practical experiences to take up responsibilities in their careers and life.

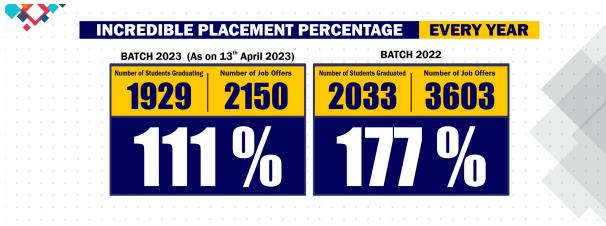

PSIT owes its commitment to excellence to its illustrious faculty. A stringent selection process of faculty members is the cornerstone of our success. The exceptionally talented and seasoned teaching fraternity motivates the students to push boundaries and become the best versions of themselves.

PSIT prepares its students to establish themselves in their chosen field of academics with an aim to develop well-rounded and discerning citizens.

VISION

- To achieve excellence in professional education and create an ecosystem for the holistic development of all stakeholders.

MISSION

- To provide an environment of effective learning and innovation transforming students into dynamic, responsible and productive professionals in their respective fields, who are capable of adapting to the changing needs of the industry and society.

GATEEN DUBEY

ABOUT THE INSTITUE...

Since its inception in 2004, PSIT has been a frontrunner in the field of education with numerous achievements to its name. PSIT believes in strengthening the foundation of the students. Academic research based on rigorous pedagogy equips our students to face challenges in the real world. The institute prepares students to be ethical leaders in a diverse and complex world. PSIT offers various courses in Engineering, Pharmaceutical Sciences, Business Management and Computer Applications. All departments, with their dynamic community of students and distinguished faculty, offer premium undergraduate and postgraduate programs. State of the art facilities and a sprawling 80 acres campus nestled amid sylvan surroundings accelerate the learning process.

The PSIT campus is an architectural marvel. Designed as the best environment-friendly campus in North India, we are committed to providing our students a clean and healthy environment. A 25,000 Ltr RO Plant, a 1350 KW Power Plant and a three-chambered Vermicompost Plant reaffirm our commitment to the cause...

STUDENT CLUBS

PSIT encourages its students to become actively involved in club activities. Involvement of students in these activities can help them in gaining experience in technology, teamwork, leadership, organization and so on...

ENGINEERING...

Engineering programs at PSIT, Kanpur do more than just develop world-class engineers and scientists. We nurture these bright minds to grow into pioneers with a global perspective, technical expertise, and leadership skills to bring a change in the world.

DEPARTMENTS

Department of Computer Science and Engineering (CSE)

Department of Information Technology (IT)

Department of Electronics and Communication Engineering (ECE)

Department of Electrical and Electronics Engineering

Department of Mechanical Engineering

The Department of Computer Science and Engineering (CSE)

The Department of the Computer Science and Engineering at PSIT was formed in 2004 with an initial intake of 60 students. Ever since its inception, the department has seen tremendous growth in terms of academics, higher education, research & innovation. Thus laying stepping stones of 100% admissions and at present the sanctioned intake for B.Tech in CSE is 300 and 18 for M.Tech.

The department of Computer Science and Engineering is dedicated to provide high-quality undergraduate and postgraduate education to the students to prepare them for prolific careers. The Vision of the Department is to be a recognised department that fosters versatile computer engineers capable of adapting to the changing needs of computer and related industry.

The Department of Information Technology (IT)

A career in Information Technology can involve working in leading IT departments, product development teams, or research groups. In this field, the job requires a combination of both technical and business skills to attain success. Department of IT is committed to making the best use of modern technology within the organization to help improve quality of services for ordinary people. It also guides on technical matters to the departments and supporting them along with the IT road map.

The Department of Electronics & Communication Engineering

The department of Electronics & Communication Engineering has seen tremendous growth in terms of academics, higher education, research & innovation. The Department has state-of-the-art educational assistances, visual laboratories and skilled faculty ensuring active teaching-learning process to see the constantly growing and changing industrial and business environment. The entire culture of the learning process is designed in a way to continuously challenge the young minds with ideas with innovative research.

The Department Of Electrical & Electronics Engineering

The Department of Electrical and Electronics Engineering typically deals with the study and application of electricity, electronics, and electromagnetism. It also deals with many of the real problems facing our world today. This field deals with every aspect of handling information from sensing and acquisition through communications, networking, switching, processing and storage. The Department of Electrical & Electronics Engineering at PSIT was established in 2004. The main objective of the department is to offer value-added educational experience through quality instruction that prepares graduates for a range of career opportunities in today's world.

The Department Of Mechanical Engineering

The department of mechanical engineering of PSIT started with the commencement of the institute in 2004. The department is a well-knit unit comprising well-versed faculty from reputed institutes. Laboratories and workshops are well equipped with state-of-the-art rigs, through which we strive to provide the undergraduates with holistic know-how of the trade.

- Material Science and Testing,
- Thermodynamics Lab
- RAC Lab (Refrigeration and Air Conditioning Lab)
- FM (Fluid Mechanics)
- Fluid Machinery Lab
- TOM Lab (Theory of Machines Lab)
- HMT Lab (Heat and Mass Transfer Lab)
- CAD/ CAM Lab
